Faridabad – 121 002

**ESTABLISHMENT OF PROJECT INFORMATION CONTROL
CENTRE OF THE INFORMATION NETWORK FOR
CONSTRUCTION PROJECT SITES (PICCIN) FOR PROJECT
AUTHORITIES, PROJECT MANAGEMENT CONSULTANTS
& CONSTRUCTION COMPANIES**

Monitoring the Performance of various Project Sites is a major task for all the Project Authorities as well as for the PMCs & also for Construction Companies.

Effective monitoring and expeditious corrective measures, result in avoiding unwanted time and cost over runs, Correction of flaws, loss of resources & are also a sure measure of evaluating the performance and effective utilization of employed resources Construction Industry Development Council, the apex organization, established by Planning Commission (now NITI Aayog), recognizing the importance, has introduced a National Scheme PICCIN to extend support to the Project Authorities, Project Management Consultants & the construction companies, to create and manage their captive information flow network utilizing UAV Technology (Drone Applications)

CIDC, has a vast pool of certified Drone Pilots & has supported several key Infrastructure Development Organizations having rendered the UAV technology Services.

PICCIN, envisages facilitating establishment of a central control centre and Inter-alia grooming the dedicated staff to learn application of technology to provide a real time information flow.

Desirous organizations, having multi locational functioning, may contact:
